

REMARKS/ARGUMENTS

Status of Claims

Claims 1-64 were filed in the present application. These claims have been subjected to an election of species requirement. As outlined above, Claim 5 was amended to correct a typographic error. No claims have been canceled or added, and Claims 47-64 have been withdrawn from consideration as drawn to a non-elected invention. Therefore, Claims 1-64 are pending in this application, however, only Claims 1-46 are currently under consideration.

In preparing this response, Applicants noted that Claim 5 lacked a period at the end of the claim, and this has been corrected, above. No new matter is added by this amendment.

Election of Species Requirement

The Office has required election of one of the following species:

Species I: Claims 14-46, recommending a skin care regiment;

Species II: Claims 47-46, providing a hair care plan;

Species III: Claims 52-56, salivary analysis program; and

Species IV: Claims 57-64, providing a stress management analysis.

The Office has also indicated that Claims 1-13 are generic. Applicants hereby elect species I, Claims 14-46, without traverse for examination on the merits. As Claims 1-13 are generic, the claims under consideration should include all of Claims 1-46.

Applicants believe that the foregoing presents a full and complete response to the outstanding Office Action. Applicants look forward to an early notice of allowance for this application.
